

Print original Karim Rashid designs with Leapfrog 3D Printers Creatr!

Leapfrog 3D Printers announces a brand new concept 'Designers for Leapfrog' where high end designer pieces can be bought digitally and printed on the Creatr. This project kicks off with a collaboration with non-other than Mr. Karim Rashid. This world renowned designer launches his first 3D product line in collaboration with Leapfrog 3D Printers. The collection includes 7 exclusive Creatr designs, with a.o. a high fashion lamp, a vase and a fruit bowl.

Karim Rashid Designer Package

The Leapfrog 3D Printers webshop offers a package deal which includes a Creatr Dual Extruder, 6 rolls of filament, print stickers, professional software and 7 original Karim Rashid designs. The collection is characterized by organic shapes, lively colors and has a futuristic feel to it. It suits perfectly with the modern production technique of 3D printing. In addition to Leapfrog 3D Printers mission to make high end techniques and materials accessible to a wide audience, now high end designer pieces are also made available for everyone with a 3D printer. Visit the webshop to purchase your own Karim Rashid Designer Package.

Manufacturing designer pieces

This is the first time that a high end designer is selling his designs along with a 3D printer. There are many 3D designers, but this collaboration is the first of its kind. It changes the entire process of online shopping. Not only does the customer purchase the products online, he also becomes the manufacturer. There are no longer issues of designer stores not being in a specific region, nor are products being out of stock. A new way of online purchasing designer pieces has started.

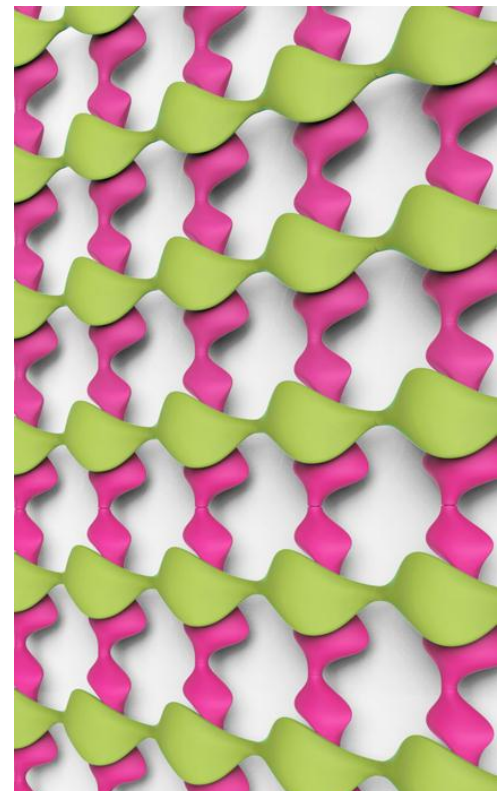

About Karim Rashid

Karim Rashid is one of the most prolific designers of his generation. Over 3000 designs in production, over 300 awards and working in over 35 countries attest to Karim's legend of design. Karim's diversity affords him the ability to cross-pollinate ideas, materials, behaviors, aesthetics from one typology to the next, crossing boundaries and broadening consumer horizons.

His award winning designs include democratic objects such as the ubiquitous Garbo waste can and Oh Chair for Umbra, interiors such as the Morimoto restaurant, Philadelphia and Semiramis hotel, Athens and exhibitions for Deutsche Bank and Audi. Karim has collaborated with clients to create democratic design for Method and Dirt Devil, furniture for Artemide and Magis, brand identity for Citibank and Hyundai, high tech products for LaCie and Samsung, and luxury goods for Veuve Clicquot and Swarovski, to name a few.

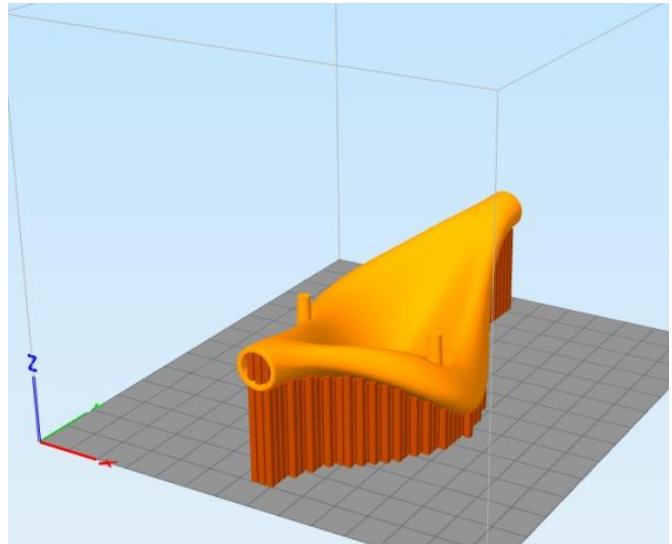

Preview of an original Karim Rashid 3D model.

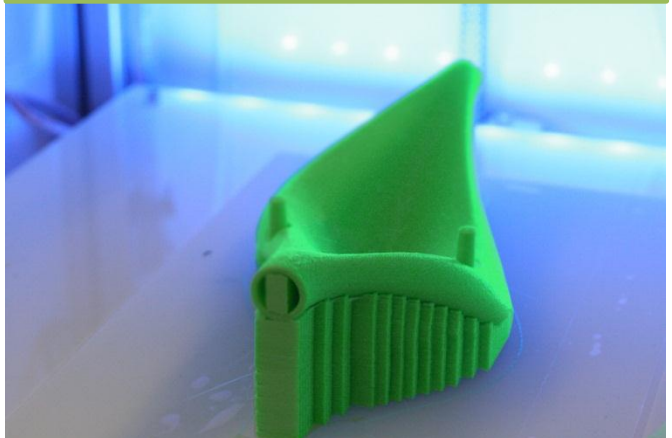

The objects combined make an amazing wall.

About Leapfrog 3D Printers

We are a producer of plug and play and affordable 3D printers situated in The Netherlands. We aim to continuously bring the most advanced techniques in 3D printing available and affordable to a broad audience. Our customers are at the heart of our business: we learn from their experiences and help them to uncover the applications for 3D printing suited for their business. We share the knowledge we gain through publications as well as through our business consulting services, in which we analyze the value chain of businesses to see where desktop 3D printing can add value.

The 3D drawing placed in simplify 3D software. When customers 'press print' the Creatr 3D printer will start creating this design.

Model printed on the Creatr. The support structure underneath the model can easily be removed, leaving an original Karim Rashid design which is printed anywhere the customer likes.
